QUALITY ASSURANCE

DESIGN

With talented UI/UX Designers, Figma and Adobe hand-on artists, and Front-end Developers on board, we materialize your ideas and concepts with intuitive and mesmerizing user experiences.

OUR TEAM

At Techinoid, we take immense pride in our dedicated team of professionals who bring diverse expertise, creativity, and passion to every project. Our team is the driving force behind our success, and each member plays a crucial role in shaping the innovative solutions we deliver.

Our team comprises skilled individuals, from seasoned developers and designers to strategic thinkers and client-focused project managers. With a shared passion for technology and a commitment to excellence, we collaborate seamlessly to turn ideas into reality.

SECRET SAUCE

At Techinoid, our secret to success lies in our revolutionary boiler plates for .Net and Javascript, cutting development time by 50%. These meticulously crafted templates accelerate project kickoffs, streamlining workflows and ensuring time-tested efficiency

RESULTS

1

40-50%

Reduction in development time & cost

2

20-30%

Reduction in testing cost

3

30-40%

Reduction in software maintenance cost

4

0%

Severe defects in production

Fixed Cost Model:

In the fixed cost model, we give you a fixed quotation based on the scope of work provided, at a flat rate of \$40 per hour.

Note:

any additional feature requests or change requests that arise during the course of the project will be billed separately.

Payment Plan:

The total payment is split into 2 or more installments.

*Rates will be higher for resources having more than 6 years of experience or for advanced technologies like AI, ML etc.

WHY CHOOSE TECHINOID

Our commitment to putting our customer first has allowed us to not only endure but thrive in the software development industry. Over the past 8 years, we've generated quite a reputation among our clients. Many of whom have been with us since the beginning, putting their trust in us year after year.

Experience

Our team of over 100 seasoned resources is experienced in a wide range of technologies and providers unparalleled solutions to our global clientele.

On-Site Meet Up

It is always preferable to meet face-to-face. As our business development head is located in the US, you have the opportunity to meet with him for requirement gathering and analysis.

Flexible Engagement

Whether you need a project-based relationship or would like to recruit developers to your existing projects, we give you complete control over how you engage with our resources.

Extensive Documentation

Whether it's user manuals or documentation for Software Re-Engineering, Requirement Specifications, Functional Specification, and Test Cases, we ensure you have all the resources you need.

Full Cycle Development

From initial consulting to implementing, supporting, and maintaining your product, we're with you every step of the software development life cycle.

Excellent Support

Whether you need to fix a bug or update a feature, our extensive support and maintenance options have got you covered.

We are committed to delivering top-notch software development solutions that are customized to fit your unique business requirements. Our streamlined process is designed to maximize the return on your investment, providing you with the best possible value.

We are excited to work with you and help you achieve your goals.
